We are Downtown Asheville's fresh, funky, wholesome veggie cafe. Since 2002, we have been creating unique vegetarian and vegan soul foods out of our colorful space. We have fed the homeless, the hungry, the creatives, vagabonds, some celebrities, and everyone in between. We have nourished all who have passed through our doors in the best ways we know how, while striving to make sure our menu can fill any belly and our space can warm any soul.
It's an honor to feed you!

• **WE'RE ALLERGEN-FREE FRIENDLY!** •

We offer several soy-, allium-, and gluten-free options. However, our kitchen equipment is shared and cross-contamination is possible and likely! Discretion is your responsibility. Please inquire for more information.
